

Thomas A. Lyons, M.D.

Neurosurgeon

“I chose to go into medicine because of the challenge... the excitement of being able to make a difference in people’s lives.”

**Clinical Expertise and Special Interests**

Dr. Lyons is a neurosurgeon who focuses on the treatment of illnesses involving the brain, spine, and peripheral nerves. He has extensive surgical and nonsurgical training and experience involving a wide range of neurosurgical problems, such as brain and spinal cord tumors, brain aneurysms and vascular malformations, brain and spinal trauma, surgical prevention of/and treatment for stroke, and degenerative spine conditions. Dr. Lyons has a special interest in preventing neurological trauma through community education programs like *Think First*.
