

Philip A. Yazbak, M.D., FACS  
Neurosurgeon

“The most satisfying part of my job is having the ability to return critically ill people to a normal life. There’s no better feeling.”

**Clinical Expertise and Special Interests**

Dr. Yazbak is a neurosurgeon who focuses on the surgical treatment of illnesses involving the brain, spine and peripheral nerves. He has extensive surgical and nonsurgical training and experience treating brain and spinal cord tumors, brain aneurysm and vascular malformations, brain and spinal trauma, stroke and degenerative problems of the spine. Dr. Yazbak has a special interest in brain tumors and aneurysms as well as surgical repair of the cervical spine.
